

# ALLERGEN INFORMATION

We provide information for our popular menu items to help people with food allergies or sensitivities make wise food choices when dining at City Barbeque based on the eight food allergens and ingredients most often asked about. An "X" in a box indicates this menu item contains the indicated allergen. Please be advised that because of the scope of our menu, there is always the risk of cross contamination from other allergen-containing food products. We strongly advise that guests always use their best judgment based on their (and their physician's) knowledge of their allergies or sensitivities.

"X" means menu item contains the allergen/ingredient

\* Sauces used on meats are manufactured in a peanut and tree nut free facility. This sauce manufacturer's facility does work with soy, milk, eggs, wheat, fish, and shellfish ingredients. These allergens can be run on any equipment in the plant. The facility does have an allergen policy which include separate allergen storage, as well as handling and cleaning procedures to prevent cross contamination.

\*\*City BBQ restaurants are NOT a peanut and tree nut-free facility. We use pecans in our sweet potato casserole—a seasonal side dish in the fall and winter months. Also note, our Triple Chocolate Cake is made with a mix that is processed in a facility that handles peanuts.

\*\*\*No MSG is added during cooking at City BBQ, no ingredient statements from recipe ingredients used list MSG.
